## NATIONAL PRODUCTIVITY COUNCIL, JAIPUR

### announces Training Programme on "Stress Management & Work Life Balance" From September 23-27, 2024 at Mussoorie

#### INTRODUCTION

The pace of change is becoming faster, leading to higher degree of uncertainty, stress and strain on the officials at all levels of the organisation. Success of any organisation depends directly on the effectiveness of its people, executive stress has direct bearing on the performance and the health of the people. People react differently to stress at different times. Sometimes they thrive on it but sometimes they are unable to bear it. It is important that executives/ officers learn about the sources and nature of stress and learn how to manage it to remain effective and healthy.

One common challenge that employees across various organizations seem to face is finding work life balance. We often think about work-life balance as the trade-off between time spent at work and time spent on other non-work activities. In an ideal world, this line of thinking goes, after work, we're able to do things that nourish us as people — whether that's spending time with friends, family, or engaging in a hobby.
